(“DanumHost”, “DanumHost.co.uk”, “we”, “us”, or “our”). By corresponding with us, browsing our web properties, or using our Services, you agree to abide by these TOS, our Acceptable Use Policy, our Support Policy, our Refund & Billing Policy, our Privacy Policy, our Server Maintenance Policy, each of which is integrated into the TOS by reference (together, the “Policies”). These TOS may be modified from time-to-time and, by continuing to use our Services, you agree to be bound by the modifications. The most recent version of these TOS can always be found here.

2. Customers

While we facilitate your business on the Internet, we are an independent contractor. We only have control of the products and services we provide directly, and are not liable for your actions, the actions of third-party service providers, or the actions of individuals who use your products and services (“End Users”).

3. Services

DanumHost provides several services and products to its customers, which are collectively referred to in these TOS as the “Services”. Regardless of whether you pay for a Service, or it is provided as part of a package or for free, any Service you request or allow to be provided by DanumHost is included as part of the “Services” we refer to in these TOS and the Policies. All Services are subject to each of our Policies. Services may also be provided by third parties and their terms of service or use that may contain additional or different terms will also apply to your use of their services. We may change the specifications or details of the Services at any time, but we have no obligation to change the Services. Additionally, the third parties we contract with to provide Services may change their offering between the time of purchase and the date the Services are delivered. We will use commercially reasonable efforts to inform you of changes to the Services.

Knowledgebase. Additional information on our Services, including those listed below, can be found in our Knowledgebase, located at: <https://www.danumhost.co.uk/knowledgebase>. These TOS govern where they conflict with anything posted in the Knowledgebase.

Domain Registration: <https://www.danumhost.co.uk/knowledgebase>

These Services enable certain software and development options, including those located at: <https://www.danumhost.co.uk/knowledgebase>.

Terms Specific to Domain Name Services.

We resell domain names. When you apply to register a domain name, your request is transmitted to Reseller Club (www.resellerclub.com). By using our Domain Name Services, you agree to be bound by Reseller Club’s domain name registration policies and procedures, so please read them. These policies and procedures are available at:

<https://uk.resellerclub.com/legal-agreements>, because of the mechanics of domain name registration, we cannot guarantee that your domain name will be registered. After registration, it is your responsibility to ensure your domain name does not lapse, for whatever reason, and we are not responsible for any lapse, or any damages caused by any lapse.

It is your sole responsibility to fully investigate and ensure that the domain name you register does not infringe on the legal rights of others. We do not check to see whether a domain name you register, or use infringes on the legal rights of any third party, and we suggest you seek advice of legal counsel before registering any domain.

DanumHost will use commercially reasonable efforts to comply with any legal order to cancel, modify, or transfer your domain name. ICANN's Transfer Policy requires a 60-day transfer lock to apply to your domain name(s) in the event of any "Change of Registrant." DanumHost currently locks your domain name for any change involving your Whois information. This feature is designed to protect your domain from any unauthorized attempt to transfer your domain. We do not offer an option to opt out of the 60-day transfer lock. Any "Change of Registrant" as defined by ICANN's Transfer Policy will subject the domain to a 60-day transfer lock. Please note that the parameters that trigger the 60-day transfer lock are subject to change. The current parameters which trigger the 60-day lock include: (A) change of registrant First Name, (B) change of registrant Last Name, (C) change of registrant Organization Name, (D) change of registrant Email. You also agree and understand ICANN's policies for Domain Verification and any other current or future policies they might enact. More information can be found here: <https://www.enom.com/raa/>, <http://www.icann.org/en/resources/registrars/registrar-rights/educational>, and <http://www.icann.org/en/resources/registrars/registrar-rights/benefits>.

Terms That Apply to All Hosting Services.

Our Hosting accounts are allocated bandwidth depending on the package you select. The bandwidth for Services purchased does not rollover and is not creditable across periods. In the event you require more bandwidth than you have purchased, your account may be suspended until the next period, you may purchase additional bandwidth by upgrading your account, your account may be terminated for a violation of the terms of the package you purchased, or we may charge you an additional fee for the overage, in our sole discretion.

In using our hosting Services, you may not place excessive burdens on our CPUs, servers, or other resources, including our customer support services. You understand that bandwidth, connection speeds, and other similar indices of capacity are maximum numbers. Consistently reaching these capacity numbers may result in our need to place restrictions on your use of the Services, including suspension or termination of your account or a reduction in bandwidth available for your use (also known as bandwidth throttling), in our sole discretion. You agree that we may place restrictions on your use of the Services or customer support services to the extent that they exceed the use of these resources by similarly situated customers.

Terms That Apply to Particular Hosting Services.

For all Unmanaged Hosting Services, you are solely responsible for providing the firewalls and software and for all installation, maintenance, security, and backup for the Unmanaged Hosting Services.

If you utilize Managed or Unmanaged Hosting Service with Root Access, you acknowledge that you are solely responsible for any changes you make while using such access and DanumHost may not be able to correct any changes, recover data, or reverse any damage you do when using Root Access capabilities. We will use commercially reasonable efforts to troubleshoot issues upon request, as stated in our Support Policy, located at: <https://www.danumhost.co.uk/>.

For Shared Web Hosting, the terms “unlimited” and “unmetered” are defined by our experience with similarly situated customers. This means that your use of our resources may not exceed that of similarly situated customers. You agree that we may remove impermissible materials from our servers at any time in our sole discretion without notice. We may also delete the following types of files if we find them to be using excessive amounts of disk space, especially if affecting other customers: (i) cPanel or other backups stored locally, (ii) Softaculous backups stored locally, (iii) Softaculous backup temp files, (iv) Common CMS backups stored locally, (v) Common CMS backup temp files, (vi) Common CMS backup logs, (vii) excessively sized error logs, and (viii) any other large files deemed unnecessary for core website functionality or not containing any valuable data.

Email Hosting enables a user to use specific Services, including cPanel services, to create or delete email accounts, manage passwords, set mailbox space quotas, or configure other server-specific settings. Email Hosting services are subject to certain storage limitations and we auto-delete email in your trash or deleted folder after such email becomes more than three hundred and sixty-five (365) days old to help you manage storage limits. We may also delete mail in your spam or bulk mail folder after such email becomes more than three hundred and sixty-five (365) days old to help manage storage limits. You should backup and save your emails locally to ensure they will be available when needed. If an email is deleted, we will use commercially reasonable efforts to retrieve such email but cannot guarantee recovery of any emails. Email accounts may be subject to storage quotas specified in a particular package.

Our Email Hosting Services do not ensure that your inbound and outbound emails will be delivered; settings beyond our control may impact email deliverability, including emails being sent to a spam folder or emails not being delivered at all. IP address blacklisting beyond our control may also affect email delivery.

Our Email Hosting service is designed for sending email only with no other attachments of services or products DanumHost may offer. As part of this package, we do not allow any account to be used for sending email's which may be seen as spam. Should this be highlighted to our team, your full hosting account will be suspended pending investigation and a possibility of your account being closed. A full refund will be given for that account for any full months of hosting remaining. Purchased domain names will not be refunded as these will be registered to yourself/company and is your property. Should you require a full backup of your content then this can be done by request.

4. Access

You will not have physical access to any of the servers on which your data is stored. These servers will often be shared with third parties. Use by any third party may affect your use and administration of the server. You shall not take any actions to limit the use of or alter the server or Service functionality or the functionality of any related equipment. If you require server access, we do provide VPS and Dedicated servers which allow this access.

5. Control Panels

cPanel is provided through a third party. When you subscribe for use of cPanel with any of the Services, you agree to be bound by cPanel's End User License Agreement, available at: <http://cpanel.com/legal-store.html>. You are not entitled to notice, or protest should we exercise these rights. Upon termination, your account will be closed, data deleted, and all fees and charges due and payable must be paid to us. Once your account is closed, we have no responsibility to: (x) forward email, or other communications or (y) maintain any data backup that predates the termination date. All data in accounts that are not renewed or are terminated will be removed from our servers and will likely be irretrievably lost. 3. Methods of Support

Support Generally. Support we offer is included as a Service. We do not charge for responding to technical support tickets, phone calls or LiveChat but we do expect you to abide by the terms of this Support Policy and our other Policies when utilizing this Service.

Technical Support Tickets. This is our primary support system. Almost ALL issues will require the submission of a trouble ticket. This is our preferred method because of the ability to track issues to resolution and give us time to properly review and research problems. Please do not submit multiple tickets about the same problem as that simply creates confusion. If you need to add information to an existing ticket, please do so in the existing ticket by logging into the support system or by replying to the ticket email.

4. Customer Relationships

We strive to provide you with courteous, professional, and technically accurate support. Although we understand how frustrating technical problems can be, we ask that you treat us with respect, and we will do the same in return. Our ultimate goals are the same, providing you with accurate support in a timely manner. If you feel you have been treated unfairly or have any other complaints, you may contact us to reach a supervisor directly. Our dedicated support team will be the same point of contact for you however should this not be possible an alternative support adviser will step in during the meantime, to which then will resume to your original point of contact when possible.

5. Support Hours

The timeframes below are when the applicable method of support is provided. You can of course submit tickets outside this time frame, but answers may not be received until business hours resume.

6. Technical Support Tickets

7 days a week

Support Tickets: Monday-Sunday 8:00AM - 6:00PM GMT/BST

7. Billing and Sales Support

Server Maintenance

1. Purpose

This is DanumHost Limited's ("DanumHost", "we", or "our") Server Maintenance Policy. This Server Maintenance Policy discusses the ways in which we maintain our technology to improve and administer the Services (as defined in the Terms of Service) and how you will be impacted by those actions. Capitalized terms used but not defined in this policy have the meaning given to them in our Terms of Services, located at: <https://www.danumhost.co.uk/knowledgebase/>.

2. Availability

We offer a 99.9% (9.7 hours downtime annually) complete server uptime commitment. We will use our commercially reasonable efforts to provide the Services twenty-four (24) hours a day, seven [7] days a week. However, to operate in an efficient and secure manner, servers and network equipment require routine maintenance and upgrades ("Scheduled Downtime") and you acknowledge that from time to time the Services may be unavailable for various reasons, including due to Scheduled Downtime or causes beyond our control. We will provide commercially reasonable advance notice to you for Scheduled Downtimes and will use commercially reasonable efforts to minimize any other disruption, inaccessibility, or inoperability of our web servers but we are not responsible for the unavailability.

3. Maintenance

Planned outages, including Scheduled Downtime, during these periods will not fall under our 99.9% uptime commitment. DanumHost will make a reasonable effort to advise DanumHost customers as far in advance as possible of any predicted extended outages.

Definitions. Three types of maintenance downtimes are defined:

"Routine Maintenance" means a weekly short downtime necessary for quick updates and patches requiring reboots or restarts.

"Comprehensive Maintenance" means a longer monthly or otherwise scheduled downtime necessary for more significant enhancements.

"Emergency Maintenance" means a service affecting maintenance that is so severe it requires immediate attention.

"Scheduled Downtime" includes (i) and (ii) above.

Intervals. The Scheduled Downtime intervals are as follows (the time zone is where the data centre or server is located GMT/BST):

Routine Maintenance Window (Daily). Every day, from 12:00 AM until 5:00 AM, outages should not exceed five (5) minutes unless other problems are encountered and will NOT be announced. During these times there may not be any downtime

Comprehensive Maintenance Window (Monthly or Scheduled). First Saturday evening of every month from 11:00 PM until 5:00 AM Sunday morning or otherwise scheduled and communicated to affected customers via your contact email address.

Emergency Maintenance. This type of maintenance is inherently not scheduled and is only used in extreme circumstances. We will make our best effort to notify customers should this become necessary.

Limitations. This Server Maintenance Policy includes but is not limited to: (i) shared servers and accounts, (ii) reseller servers and accounts, (iii) VPS servers and accounts, (iv) dedicated servers and accounts, (v) all network equipment, and (vi) internal websites such as billing and support. Major system upgrades may require additional Scheduled Downtime.

4. Backup of Data

Before attempting to troubleshoot any issue yourself or engaging us to assist with Service issues, please **BACKUP ANY AND ALL DATA**. Although DanumHost makes daily backups of account data daily (excluding some products and services) we cannot be held responsible for any data loss during backups. DanumHost is not responsible for any data loss or corruption, including that resulting from: (i) our authorized actions, (ii) those actions you take using the Services, (iii) hardware failures, or (iv) any software or other technology failures.

5. Customer Responsibilities

It is the responsibility of the customer to make sure that all Services being provided on their servers are setup to resume operations automatically upon reboot or restart of the Service you have with us. DanumHost will not be held responsible for any problems or service outages caused due to reboots during standard maintenance periods.

WE HAVE NO RESPONSIBILITY FOR DOWNTIME RESULTING FROM YOUR ACTIONS.

Please contact support at <https://www.danumhost.co.uk> and file a ticket if you have any questions.

Regardless of your payment method you would still be eligible for the first year's hosting and domain name* and this would also be discussed during the consultation period.

We no longer offer a monthly payment service for our websites unless you are already on one then this will end once all payments are in full and completed. The ownership of any website remains the property of DanumHost Limited until all payments are completed in full. Please see Website Leasing should you want a pay monthly website with additional terms attached to the package.
